

**U.S. Department of the Navy**

Office of the Assistant Secretary of the Navy (Financial Management and Comptroller)  
The Honorable Richard Greco, Jr.

## Success Story

### **Naval Sea Systems Command (NAVSEA) Warfare Center Comptroller Team**

---

In an effort to improve communication, collaboration, and standardization of business practices, the NAVSEA Comptroller and Warfare Center Comptrollers meet several times a year. What began as discussions centered on the sharing of ideas and common problems has turned into a forum supporting best practices and standardization efforts. Past accomplishments include identification of cause and reduction of unmatched disbursements and the implementation of a common accounting system. A NAVSEA Comptroller award was created to recognize individuals and teams, who created and shared system or process improvements resulting in cost savings and increased standardization.

We have created a collaborative work environment (an internal Sharepoint web site) to facilitate the sharing of instructions, training materials, and presentations. Current initiatives include standardizing Financial Management core capabilities and core competencies, establishing shared financial management and systems training and instructions. We are also heavily involved in designing and developing interfaces between financial systems in order to streamline processes and provide an end-to-end automated data flow.
